SUHAS JAIN

ASSIGNMENT-2

(91) To proone: 11ABII2 < 11A112.11BII2

For B = 0 [Trivially true]

For B = 0

 $\frac{\|AB\|_2}{\|B\|_2} \le \max_{\beta \neq 0} \frac{\|AB\|_2}{\|B\|_2} = \|A\|_2$

11 ABII2 < 11 AII2

(11ABI1 2 < 11A11 2 11B112)

for Jorobanius norm:

11ABILF = 11 CIIF = \(\hat{\frac{2}{2}} \frac{2}{j=1} \) [Cight]

 $= \underbrace{\hat{\mathcal{E}}}_{\text{in}} \underbrace{\hat{\mathcal{E}}$ Applying couchy- smartz inequality

< \(\frac{1}{2} \) \(\f

= (\frac{1}{2} \frac{1}{2} \left(\frac{1}{2} \reft(\frac{1}{2}

= 11A112 11B112

Hence, this property holds for frobenius norm.
